

# NEWS LETTER

**MINOURN**

- 1) Twin Roller provides realistic resistance to help build strength especially effective for pre-race training sessions.
- 2) FG220RR includes a 12mm thru-axle adapter. Please install the adapter if your bike uses a 12mm thru-axle or has disc brakes.
- 3) The FG220RR is not just for daily training-it also helps elevate your heart rate quickly during warm-ups before competition.

Resistance system built in both rollers.

12mm Thru-Axle, 15mm Thru-Axle compatible.

Wide ground contact, keeping stable during training.

Boost adapter separately 15mm x 110mm. (SKU : 400-4761-00)
