“OODACHI” Full fender

The Odachi is a full size stainless steel fender designed for maximum coverage and durability. Its robust construction protects riders from rain and road spray while maintaining a refined, polished look.

Built to withstand years of riding, it can be polished to restore its shine and continue aging beautifully with your bike.

Made to Age With You

“KODACHI” Short fender

The Kodachi is a compact fender designed for everyday riding and clean bike aesthetics. Lightweight and easy to install, it reduces road spray while keeping your bike's appearance sleek and minimal.

Ideal for riders who want practical protection without the bulk of a full fender.

Rain, mud, and miles become part of the journey.
The Tachi Series is built to last and designed to grow with your bike over time.
